D2

Milliken™ for Standard Textile

Convertible Flooring

# better textiles delivered seamlessly

## GOING BEYOND CONVENTIONAL

D2™ Convertible Flooring™ extends beyond the every day entry and walk-off zones to establish protective flooring throughout building interiors. D2's two-part design delivers the flexibility of conventional mats with the stability of installed flooring.

Prior to D2™, increased floor safety and stability was achieved only by adding weight to conventional mats, or through permanently installed flooring. This meant users had to compromise aesthetics or flexibility. D2™ placements do not move, shift or migrate, making them easy to deploy, clean, and maintain.

Maximizing both stability and design, the low-profile, lay-flat D2™ placement minimizes slip, trip, and fall risks. D2™ placements textile Tops are up to 50% lighter than conventional mats making them easier to install and clean.

# two dynamic design options

Both D2™ Tops are available in three sizes: small, medium, and large. Both options can be custom printed with your supplied art or partner with our designers to source or create a custom design. Your design will never be discontinued, and there are no order minimums.

## D2 LAUNDERABLE TOPS

- Made to be thrown into a commercial washer setting
- Light weight Top allows for easy rotation
- Available in three patterns and colors

## D2 CLEAN-IN-PLACE TOPS

- Tufted textile attracts moisture and traps dirt
- Top can be vacuumed and cleaned with water extraction
- Available in three patterns and eight colors

**ADAPTEX™**  
ACTIVE SURFACE TECHNOLOGY

This patented technology uses magnetic attraction to actively lock the D2™ Top and Base together. Once paired, the lightweight Top stays in place.

## key features

### ANCHORED FOR STABILITY

- Two-part system locks together, actively resisting movement
- Reduces opportunity for slips, trips, and falls

### LIGHTWEIGHT TOP

- Top is designed for cleaning independent of the Base
- 20-50% lighter than conventional mats

### THIN, FLAT SYSTEM

- Attractive, low profile design fits safely and seamlessly
- Lay-flat reinforced edge diminishes kick-up

### MODULAR DESIGN

- Two-part design pairs premium stability with modularity
- Fully customizable/configurable

### CUSTOM PRINTING & DESIGN

- Supply your own art or work with our designers
- No minimums for custom printing required
